Filing Description:

Enclosed for your review and approval, please find the form referenced above. This form is a new form and does not replace any existing form, nor has it been previously submitted to your Department for preliminary review. This submission does not contain any provisions, conditions, or concepts that are uncommon, unusual or possibly controversial from the standpoint of normal company or industry standards.

Form R6046914NW is a Guaranteed Withdrawal Benefit Rider. This rider is intended for use with P1104314NW pending your approval, under file number GRAX-G129694907, and any individual deferred indexed annuity contracts we may develop in the future.

This is an optional rider that may be added only at issue, and must be selected at the time of application. The rider provides for guaranteed withdrawal rights (i) for the life of the Insured, or (ii) for the joint lives of the Insured and his or her Spouse and for the remaining life of the survivor of them even if the Contract values are exhausted.

GUARANTEED WITHDRAWAL BENEFIT RIDER

Not Transferable

You may decline this rider without charge by giving us written notice. You have until midnight of the twentieth (20th) day following the day you receive this rider. The required notice must be given to us or to the agent who sold it to you, in person or by mail. If by mail, the notice is effective on the date it is postmarked, with the proper address and with postage paid. If you decline this rider as set forth above, this rider shall be void and no rider charge shall apply. You may also decline this rider at any later time, but a prorated portion of the annual rider charge shall be taken.

This Guaranteed Withdrawal Benefit Rider (this "Rider") is attached to an individual deferred annuity contract ("Contract"). The Contract number is set out on the Rider Specifications page. This Rider provides guaranteed withdrawal rights (i) for the life of the Insured, or (ii) for the joint lives of the Insured and his or her Spouse and for the remaining life of the survivor of them. You shall be entitled to take withdrawals from the Contract equal to the Benefit amount even if the Contract values are exhausted. The rights to such withdrawals are subject to the terms and conditions set out in this Rider.

As you read through this Rider, please note that the words "we", "us", "our", and "Company" refer to Great American Life Insurance Company. The words "you" and "your" refer to the owner of the Contract, including a joint owner, if any. "Administrative Office" means our home office or any other place of business that we may designate for administration.

This rider is a part of the Contract. It is not a separate contract. It changes the Contract only as and to the extent stated. In all cases of conflict with the other terms of the Contract, the provisions of this Rider shall control.

Signed for us at our office as of the date of issue.

A handwritten signature in black ink, appearing to read "Mark F. Muething".

DEFINITIONS

Capitalized terms not defined in this Rider have the same meaning as such terms are defined in the Contract.

Benefit: A guaranteed withdrawal benefit that is available under the BENEFITS section of this Rider.

Benefit Base Amount: The amount on which Rider charges and Benefit payments are based. This amount is computed under the **Benefit Base Amount** provision of this Rider.

Benefit Start Date: The first day that a Benefit under this Rider is to be paid.

Benefit Year: A twelve (12) month period beginning on the Benefit Start Date or on an anniversary of the Benefit Start Date.

Excess Withdrawal: Each withdrawal from the Contract on or after the Rider Effective Date except:
a withdrawal to pay Rider Charges; or
a withdrawal to pay Rider Benefits.

An offset of a defaulted Loan after the Rider Effective Date shall be considered an Excess Withdrawal.

Insured: The principal person whose lifetime is used to measure the Benefits under this Rider. The Insured on the Rider Effective Date is set out on the Rider Specifications page.

The Insured is the individual who is the owner of the Contract, without regard to any joint owner. If you or a joint owner is not a human being, then the Insured is the individual who is the Annuitant under the Contract, without regard to any joint Annuitant. Except as provided below, the Insured cannot be changed after the Rider Effective Date.

If the spouse of the person who is the Insured on the Rider Issue Date (or a custodial account or revocable trust of such spouse) becomes the sole Owner or successor owner of the Contract before the Benefit Start Date and this Rider does not terminate, then that spouse shall become the Insured.

Loan: To the extent permitted by the Contract, a loan made under the Contract and secured by the values of the Contract.

Required Minimum Distribution: The amount, if any, that is required to be distributed from the Contract for the current calendar year under Section 401(a)(9) of the Internal Revenue Code or the similar provisions of federal tax law to the extent applicable to the Contract. For purposes of this Rider, it shall be computed based on the values of the Contract without considering any other annuity or tax-qualified account. It shall be reduced by all prior withdrawals or Benefit payments from the Contract made in such calendar year. For purposes of this Rider, we may choose to compute it disregarding changes in federal tax law after the Rider Issue Date that would increase it. We will notify you if we make this choice.

Rider Effective Date: The effective date of this Rider. If the Contract is issued with this Rider, the Rider Effective Date shall be the Effective Date of the Contract. If this Rider is added to the Contract after the Effective Date of the Contract, the Rider Effective Date shall be the first Contract Anniversary on or after the date that this Rider is added. The Rider Effective Date is set out on the Rider Specifications page.

Rider Year: Each Contract Year that begins on or after the Rider Effective Date.

Rollup Amount: An amount credited to the Benefit Base Amount under the **Rollup Amounts** provision of this Rider.

Rollup Base: The Rollup Base is set out on the Rider Specifications page. At any time after an Excess Withdrawal, the Rollup Base will never be more than Account Value of the Contract immediately following that Excess Withdrawal or any prior Excess Withdrawal.

Rollup Period Withdrawal: An amount that may be withdrawn before the Benefit Start Date without stopping a Rollup. To qualify as a Rollup Period Withdrawal, an amount withdrawn either must be a Required Minimum Distribution for the calendar year in which the current Contract Year began, or it must meet both of the following requirements:

- 1) it does not exceed the amount that may be withdrawn without an Early Withdrawal Charge or other charge or fee under a free withdrawal allowance or privilege or bailout provision of the Contract (whether or not any amounts in the Contract are still subject to an Early Withdrawal Charge or other charge or fee); and
- 2) you have not already taken the maximum number of such withdrawals that is set out on the Rider Specifications page.

A Rollup Period Withdrawal is still an Excess Withdrawal.

Spouse: The person who is the spouse of the Insured on the Benefit Start Date. A spouse shall cease to be considered the Spouse if the marriage of the Insured and Spouse is terminated by divorce, dissolution, annulment, or for other cause apart from the death of the Insured. A new spouse cannot be substituted after the Benefit Start Date.

GENERAL PROVISIONS

Misstatement

If the age of the Insured or the Spouse has been misstated, we may adjust the Benefit amount, if affected, to the amount that would have been available based on the correct age. If the Benefit amount based on the correct age would have been lower, we may treat any overpaid Benefit payments as Excess Withdrawals when each such overpayment was made, and adjust Contract values and the Benefit Base Amount accordingly. Such adjustments may in turn cause portions of later Benefit payments to be treated as Excess Withdrawals. This Rider shall terminate if the adjusted Benefit Base Amount is below the minimum. We may also pursue other remedies at law or in equity.

Rights of Insured Not Transferable

This Rider covers the named Insured on the Rider Specifications page. It does not cover any other person. Rights to Benefits under this Rider cannot be transferred or assigned except to the Insured, or in the case of a joint lifetime withdrawal option after the death of the Insured, to the Spouse.

Declining This Rider

You may decline this Rider at any time by Written Request.

RIDER CHARGES

Rider Charge Amounts

There is an annual charge for this Rider for each Contract Year that it is in effect. The charge for a Contract Year shall be equal to:

- 1) the Benefit Base Amount determined on the date immediately before the date that the charge is paid; multiplied by
- 2) the Rider Charge Rate.

The Rider Charge Rate on the Rider Effective Date is set out on the Rider Specifications page. From time to time, we may in our discretion change the Rider Charge Rate for your Rider. We will provide you notice of any such change before the start of the Contract Year to which the new rate first applies.

The Rider Charge Rate shall never exceed the maximum Rider Charge Rate set out on the Rider Specifications page.

Rider Charge Payments

The charge for each Contract Year that this Rider is in effect is taken at the end of that Contract Year. In addition, a prorated portion of the charge for a Contract Year shall be taken upon the surrender of the Contract or other termination of this Rider.

We will take the charge for this Rider as withdrawals from the Account Value of the Contract. No Early Withdrawal Charge or other charge or fee shall be deducted on account of a withdrawal to pay Rider charges.

Waiver of Charges

Charges for this Rider shall be permanently waived once the Account Value of the Contract to which it is attached is fully depleted directly as a result of withdrawals for Rider charges or Benefit payments.

Refund of Charges

We will add the charges for this Rider back to the Account Value of the Contract if the Insured dies before the Benefit Start Date, provided that the spouse of the Insured does not elect to become successor owner of the Contract.

RIDER VALUES

Benefit Base Amount

The Benefit Base Amount is equal to:

- 1) the Account Value of the Contract on the Rider Effective Date; plus
- 2) Purchase Payments received since the Rider Effective Date; plus
- 3) the interest credited to the Account Value of the Contract since the Rider Effective Date; plus
- 4) Rollup Amounts credited since the Rider Effective Date, and minus
- 5) an adjustment for each Excess Withdrawals, if any, taken since the Rider Effective Date.

The Benefit Base Amount will never be more than the Benefit Base Amount Cap. The Benefit Base Amount Cap is set out on the Rider Specifications page.

Rollup Amounts

A Rollup Amount shall be credited to the Benefit Base Amount at the end of each full Contract Year that is included in a Rollup Period. A Rollup Period begins on the Rider Effective Date, and ends on the earliest of:

- 1) the completion of the Rollup Maximum Period, set out on the Rider Specifications page, as measured from the Rider Effective Date;
- 2) the date that an Excess Withdrawal is taken that does not qualify in full as a Rollup Period Withdrawal;
- 3) a death for which a Death Benefit is payable; or
- 4) the Benefit Start Date.

No Rollup Amount shall be credited for a Contract Year unless the full Contract Year is included in a Rollup Period.

Except as provided below, the Rollup Amount for a Contract Year is equal to:

- 1) the Rollup Base; multiplied by
- 2) the Rollup Rate, as set out on the Rider Specification page.

The Rollup Amount, if any, to be credited with respect to a Purchase Payment received during the current Contract Year will be prorated. The Rollup Amount for a Contract Year shall be reduced (but not below zero) by any Rollup Period Withdrawal made during that Contract Year.

There is no compounding. No Rollup Amounts will be credited for any period before the Rider Effective Date.

Adjustment for Excess Withdrawals

The Benefit Base Amount is adjusted for any Excess Withdrawal from the Contract after the Rider Effective Date. Each adjustment is made on the date that the Excess Withdrawal is taken. The amount of the adjustment is equal to:

- 1) the percentage reduction in the Account Value of the Contract on account of the Excess Withdrawal and any related Early Withdrawal Charge, negative Market Value Adjustment, or other charge or fee related to it; multiplied by
- 2) the Benefit Base Amount just before the Excess Withdrawal.

BENEFITS

Benefit Waiting Period

You cannot take Benefit payments under this Rider before the end of the Benefit Waiting Period. The Benefit Waiting Period is set out on the Rider Specifications page. It is measured from the Rider Effective Date.

Benefit Selection

Prior to the Benefit Start Date, you must select one of the withdrawal options for Benefit payments under this Rider. The withdrawal options are the single lifetime withdrawal option or the joint lifetime withdrawal option. A Benefit selection must be made by Written Request. A Benefit selection cannot be changed after the Benefit Start Date.

Benefit Start Date

The Benefit Start Date is the date that you first take a Benefit payment under this Rider. You may choose this date by Written Request. Such a request must be made at least thirty (30) days prior to the date that the first Benefit payment is to be taken.

The Benefit Start Date may not be before the end of the Benefit Waiting Period. If a single lifetime withdrawal option is selected, the Benefit Start Date may not be before the Insured reaches the youngest age found on the Benefit Table. If a joint lifetime withdrawal option is selected, the Benefit Start Date may not be before the Insured and Spouse both reach the youngest age found on the Benefit Table. The Benefit Table is set out on the Rider Specifications page.

You must pay off all Loans on or before the Benefit Start Date. The Benefit Start Date may not be after the date that this Rider terminates.

Benefit Amount

The Benefit amount is the largest total amount that can be taken as a Benefit payment during the Benefit Year. It is determined each time that a Benefit payment is to be made.

At any time, the Benefit amount for the Benefit Year is equal to:

- 1) the Benefit Percentage, fixed on the Benefit Start Date, as determined from the Benefit Table set out on the Rider Specifications page; multiplied by
- 2) the Benefit Base Amount on the date that the payment is to be made.

The Benefit amount that is available at any point in time on or after the Benefit Start Date is equal to:

- 1) the Benefit amount for the Benefit Year as determined at that point in time; less
- 2) the amount of each Benefit payment, if any, previously made during the current Benefit Year.

The Benefit Percentage is based on the withdrawal option selected and the relevant age of the Insured or Spouse on the Benefit Start Date. If the single lifetime withdrawal option is selected, the Benefit Percentage is based on the age of the Insured. If the joint lifetime withdrawal option is selected, the Benefit Percentage is based on the younger of the age of the Insured or the age of the Spouse. For this purpose, we will use the person's age as of his or her last birthday.

Minimum Benefit

The Benefit amount for a Benefit Year shall never be less than the Required Minimum Distribution, if any, for the calendar year in which that Benefit Year began.

Benefit Payments

Benefit payments shall be made at any time or times on or after the Benefit Start Date upon your Written Request. A Benefit payment may be an amount up to the full Benefit amount available on the payment date. You may not take a Benefit payment of less than \$50. Benefit amounts available for a Benefit Year but not taken may not be carried over to the next Benefit Year.

Until the Account Value is exhausted, Benefits are paid in the form of withdrawals from the Contract. After that, Benefits are paid under the Rider itself and no Excess Withdrawals are permitted.

All rights to take Benefit payments shall end on the earliest of:

- 1) the date that the Insured dies, if the single lifetime withdrawal option is in effect; or
- 2) the date that the Insured dies, if the joint lifetime withdrawal option is in effect, but no Spouse survives the Insured or qualifies as a Spouse on the death of the Insured; or
- 3) the date that the Spouse dies, if the joint lifetime withdrawal option is in effect and the Spouse survives the Insured and qualifies as a Spouse on the death of the Insured; or
- 4) the completion of the maximum period that a benefit can be paid under the rules of Section 401(a)(9) of the Internal Revenue Code or the similar provision of federal tax law to the extent applicable to the Contract; or
- 5) the date that this Rider terminates.

A Benefit payment may be paid to or for another annuity or tax-qualified account in an exchange, transfer, or rollover to the full extent allowed by federal tax law.

EFFECT OF RIDER ON CONTRACT TERMS

Purchase Payments Limited

After the Rider Effective Date, we may decline to accept Purchase Payments to the Contract in excess of \$50,000 per Contract Year. Before or after the Rider Effective Date, we may decline to accept any further Purchase Payments to the Contract if we are no longer issuing annuity contracts with this Rider unless you decline or terminate this Rider. After the Benefit Start Date, we reserve the right to impose additional restrictions on Purchase Payments to the Contract on a nondiscriminatory basis.

Withdrawals to Pay Rider Charges or Benefits

Withdrawals made from the Contract to pay charges for this Rider or to pay Benefits shall be subject to all of the terms and conditions of the Contract, except:

- 1) the amount withdrawn shall not be subject to an Early Withdrawal Charge or other charge or fee;
- 2) the amount need not meet the minimum amount for a withdrawal as determined under the withdrawals provision of the Contract;
- 3) it may reduce the Account Value of the Contract below the minimum that is otherwise required;
- 4) we will not terminate the Contract if such withdrawals reduce the Account Value of the Contract below such minimum; and
- 5) it may completely exhaust the Account Value of the Contract.

Withdrawals to pay Benefits shall reduce the amount that may otherwise be taken without an Early Withdrawal Charge or other charge or fee pursuant to any free withdrawal allowance or privilege under the Contract.

Loans Limited

You must pay off all Loans on or before the Benefit Start Date. You may not take a new Loan on or after the Benefit Start Date so long as this Rider is in effect.

Continuation of Contract

If the Account Value of the Contract is completely exhausted by payment of Rider charges or Benefits, the Contract shall not terminate until the Rider terminates. However, no further Purchase Payments may be made to the Contract, no Excess Withdrawals are possible, and the Contract cannot be annuitized.

Annuity Benefit of Contract

The Annuity Benefit under the Contract shall not be less than the annual Benefit amount, as determined under the **Benefit Amount** provision of this Rider as of the Annuity Commencement Date, if:

- 1) the Contract is annuitized with annual payments for the life of the Insured, or if joint lifetime withdrawal option is in effect, for the joint and survivor lives of the Insured and Spouse;
- 2) the actual Annuity Commencement Date is on or after the maximum Annuity Commencement Date that may be elected under the Contract; and
- 3) the actual Annuity Commencement Date is reached while Rider is in effect and after the Benefit Start Date.

TERMINATION

All rights under this Rider terminate upon the first of the following to happen:

- 1) your Written Request to decline or terminate this Rider;
- 2) a transfer or assignment of an interest in the Contract, unless to the Insured (or to a custodial account or revocable trust created by the Insured), or to the spouse of the Insured (or to a custodial account or revocable trust created by such spouse) before the Benefit Start Date, or to the Spouse of the Insured (or to a custodial account or revocable trust created by such Spouse) on or after the Benefit Start Date when a joint lifetime withdrawal option is in effect;
- 3) an Excess Withdrawal from the Contract that reduces the Benefit Base Amount below the Minimum Required Value set out on the Rider Specifications page;
- 4) the surrender or annuitization of the Contract;
- 5) a death that would give rise to a death benefit under the Contract, unless the spouse of the Insured (or a custodial account or revocable trust created by such spouse) becomes the successor owner of the Contract before the Benefit Start Date, or the Spouse of the Insured (or a custodial account or revocable trust created by such Spouse) becomes the successor owner of the Contract when a joint lifetime withdrawal option is in effect; or
- 6) the complete payment of all Benefits under this Rider.

Assumptions/Notes:

1. All withdrawals occur at the end of the year
2. All premiums occur at the beginning of the year.
3. GMSV is 90% of premiums accumulated at the GMIR rate less any withdrawals.
4. Index Interest is credited at the end of the year.
5. Rider charge is assessed in arrears so equals the rate times the BBA after any withdrawal but before any rollup credit is applied.

Continues as long as owl

Explanation of Variables
Guaranteed Withdrawal Benefit Rider
Rider Form No. R6046914NW

BRACKETS

- Hard Brackets [] – Denote that provision or text is variable.

RIDER

- Administrative Office – Will insert the administrative address of the company.

Specifications Page

- Owner – Will insert name of the Owner
- Joint Owner – Will insert name of the Joint Owner, if any
- Insured – Will insert name of the Insured under the GWD Rider. The Insured is generally the owner of the contract (disregard any joint owner). If the owner or joint owner is not a human being, then the Insured is the annuitant under the contract (disregard any joint annuitant).
- Annuity Contract Number -- Will insert contract number of the base annuity contract.
- Rider Effective Date – Will insert the Rider Effective Date.
- Rollup Base – Will insert the purchase payments to be used to calculate the Rollup. Will be set at issue and not changed during the lifetime of the rider. (minimum of Purchase Payments received on date of issue -maximum of all Purchase Payments during lifetime of the contract)
- Rollup Rate – Will insert the percentage used to calculate the Rollup amount for a contract year that is in a Rollup Period. Will be set at issue and not changed during the lifetime of the rider. (2% to 15%)
- Rollup Maximum Period – Will insert the maximum number of years that a Rollup amount will be added to the Benefit Base Amount, as measured from the most recent reset date. Will be set at issue and not changed during the lifetime of the rider. (3 to 20 years)
- Rollup Period Withdrawals – Will insert availability of Rollup Period Withdrawals, which are defined as withdrawals that may be taken before the Benefit Start Date without stopping a Rollup. Will be set at issue and not changed during the lifetime of the rider. (for qualified contracts, may be "Required Minimum Distributions Only," or may allow a given number, or unlimited number, of withdrawals permitted under the free withdrawal allowance of the base annuity contract in addition to Required Minimum Distributions) (for nonqualified contracts, may be a given number equal to or greater than 1, or an unlimited number, of withdrawals permitted under the free withdrawal allowance of the base annuity contract)
- Benefit Base Amount Cap – Will insert the Benefit Base Amount Cap. Will be set at issue and not changed during the lifetime of the rider. (minimum of 200\$ of Rollup Base – maximum of "None")
- Benefit Waiting Period – Will insert the Benefit Waiting Period that must be completed before rider benefit payments may begin. Will be set at issue and not changed during the lifetime of the rider. (minimum of "None" – maximum of 10 years)
- Benefit Table – Will insert the ages at which living benefits may begin, and the respective benefit percentages used to calculate the benefits at each permitted age. Will be set at issue and not changed during the lifetime of the rider. (minimum ages 40 to 65 with no maximum age, and benefit percentages of 3% to 9%)
- Rider Charge Rate – Will insert the initial and maximum percentages of the Benefit Base Amount to be charged annually for this rider. The current charge will vary from time to time as permitted by the rider terms. The maximum percentage will be set at issue and not changed during the lifetime of the rider. (0.15% to 3.0%)
- Minimum Required Value – Will insert the minimum Benefit Base Amount that must be maintained to prevent the rider from being terminated. Will be set at issue and not changed during the lifetime of the rider. (\$1,250 - \$5,000)
- Inquiries – Will insert company contact information.
- Website – Will insert company website address.
